# UX Testing + UI Iteration

	User Interface: *How could the styling of elements be changed to make a more visually appealing, clear, and space efficient layout?* *(ex: sizes, colors, fonts, alignment, etc.)*	**User Experience:** *What elements of the user experience could be improved to make the page more fun/satisfying?* *(ex: sounds, hover effects, etc.)*
User 1 Name: *Cj Lucey*	• When you click on the photo another outfit shows. • Add sounds in another place. • Make the text a little bit bigger.	• Make the background fit fashion more. • Add sound on click for the windows icon and on the folders.
User 2 Name: *Halima Daniels*	• Make the text bigger • Make the layout more colorful • Why does the image click in the folder? • Add folders to the background	• Add a sound when you click the picture of the model. • Add runway music • Make the search bar something else
User 3 Name: *Jocelyn Vazquez*	• The text is too small. • Shorten the text • Something should happen when you click the image.	• Add a hover to the image inside the folder. • Adding more sound. • Add sound when you click on things.
User 4 Name: *Alex Baybay*	• Two of the images are very similar • Instead of having them on the taskbar, have them in the desktop background. •	• Add clicking noises when you click on the folder • Add the sound of when you login to when you click the windows icon •
User 5 Name: Eric	• The sound effect when you login is nice. • Center the Balenciaga image. • Increase the font size on the desktop view. • When the layout changes to mobile make the font size smaller.	• Both the start button and the enter key check if the password is correct. • Add two different breakpoints for the font size. • Add some retro click effects when you interact with different things. • Add some sort of sound when you interact with the

| **UI Before Feedback** (Screenshot / GIF)	*What <u>trends</u> did you identify in your feedback?*
	- Add more sound - Make something happen when you click the image.
UI After Feedback (Screenshot / GIF)	*What <u>changes</u> did you make to improve your UI?*

- Added sound when images clicked
- Added sound when folders clicked
- Fixed the text with breakpoints to avoid overflow
